13 June 1966

Dear Chuck;

STATINTL

Reference is made to ☐ letter, subject: "Contract AF33(657)-12846, Follow-on EMR Procurement Spare Parts Requirements Thereunder," dated 1 June 1964 and Priced Spare Parts Lists No. 1, 16, 20, 21, 24, 30, 31, 41 and 44 attached thereto.

Numerous design change notices affecting the provisioning documents above have been approved. We assume that the DCN's will be negotiated separately and therefore have not attempted to reconcile the PSPL's beyond those DCN's mentioned by the contractor.

The following comments are submitted:

1. Lists 1, 20, 24, 30 and 31 - Items and quantities are verified.
2. List 16 - Items C00460 and C00470, quantities are 1 each. The remaining items and quantities are verified.
3. List 21 - We cannot confirm the deletion of Items B16720, B16800, B16940, B16980, B17640 or D00600. Item B16940 was deleted by Change Notice E65-32.
4. Lists 41 and 44 - We are unable to verify items or quantities on 45 Day Lists due to the constant updating of these lists by the contractor without the processing of formal change notices. We have recent listings published by the contractor which reflect the deletion of some of the items appearing on the PSPL's for Lists 41 and 44.

Regards,

*Jack*  
John
